

2210 BILL COUNTER

RELIABLE HIGH-SPEED BILL COUNTING

The Safescan 2210's back-loading hopper can hold up to 300 bills and accurately count them, up to 1.000 notes per minute. Today's currencies are printed with sophisticated security features that make it hard for counterfeiters to succeed. The 2210 automatically checks every bill for two distinct security traits: UV markings and bill size. It will pause and beep to alert you when it encounters a suspicious bill; simply remove the offender and press start to resume counting.

- Counts up to 1.000 bills/minute
- Suitable for all currencies
- Counterfeit detection: UV and size
- Alarm when suspected or different sized bill is detected
- Add and batch function
- Quick and easy to use
