

# Omni-ID

## Counterfeit Detector + ID Verifier

### Verify currency and IDs in a single machine

The Cassida Omni-ID combines a powerful automatic counterfeit detector with advanced ultraviolet LED illumination into a single machine that authenticates both US currency and IDs. The Omni-ID gives you confidence and protection, assuring the dollars, identification cards and checks you take are genuine.

#### Easy PASS/FAIL verification

The Cassida Omni-ID was engineered to be among the most advanced automatic detectors on the market, as well as one of the easiest to use. Simply feed a bill through and a green PASS or red FAIL will immediately illuminate, signifying whether the money is genuine or counterfeit. What could be easier?

- Omni-ID works faster and more conclusively than counterfeit pens — results show in less than half a second, immediately telling you whether a bill is legitimate or counterfeit

#### Intense UV Illumination

Place an ID or card in the lower slot and powerful, long-lasting LEDs automatically illuminate UV security marks embedded into genuine US drivers licenses state-issued IDs, checks, credit cards and other UV security bearing documents.

- UV LEDs are long lasting, giving you years of protection and eliminating the need to replace UV bulbs common in conventional UV detectors!
- Wondering how to identify the UV security markings on your state or another state's IDs and drivers' licenses? Go to [www.cassidausa.com/uv-id](http://www.cassidausa.com/uv-id)

#### Don't be a victim of fraud

Protect your business and employees. Get the Cassida Omni-ID to assure you'll never take another counterfeit bill, fake ID or forged payment card.
